

# The Republic of Serbia. Export statistics.

The largest trade partner of Serbia is the European Union. It accounts for over 60% of the country's foreign trade turnover (Germany, Italy, Romania, Bosnia and Herzegovina, Montenegro, Macedonia and others). Serbia is also looking for trade partners outside Europe (China, Russia, Middle East countries).

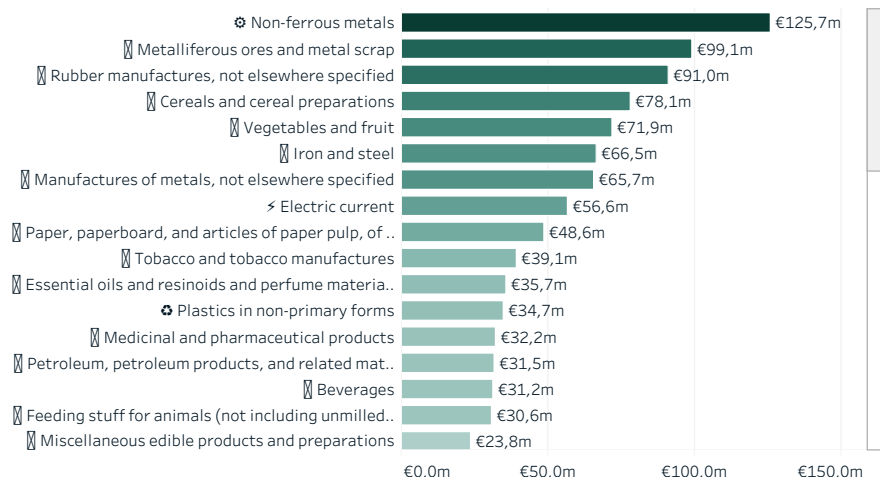

External trade statistics published on 12.03.2024.

Serbia's exports are quite diverse:

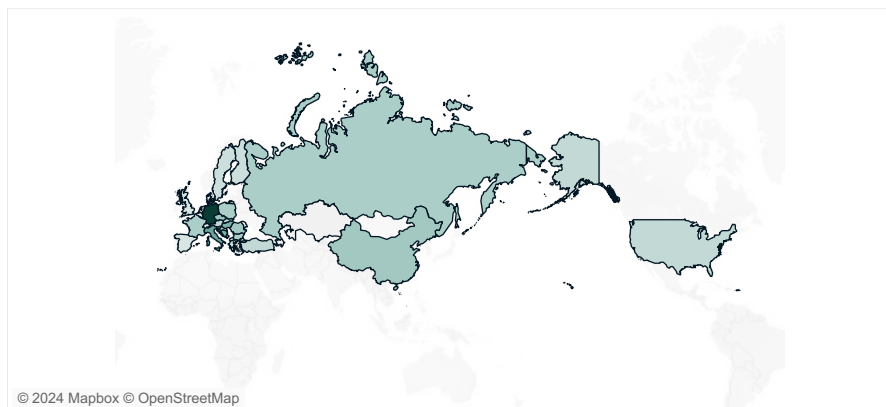

- Cars and components (Fiat, Peugeot, Volkswagen)
- Non-ferrous metals (Serbia has its own raw materials and processing capacities)
- Agriculture (one of the key sectors of the economy)
- Electrical equipment

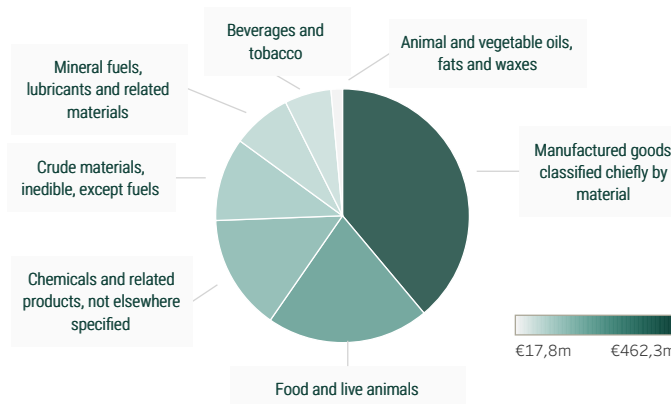

## Exports by goods

## Exports by countries

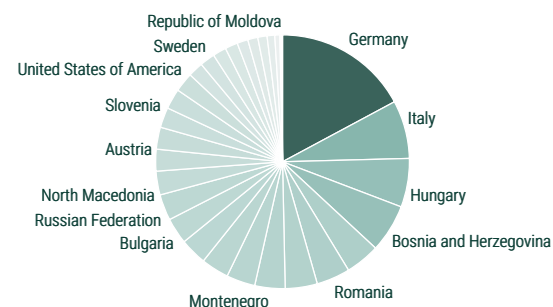

## Exports by sections

## Share in total exports (by country)

Distribution of Serbia's exports to different countries in per cent

## Exports (by geographic zones)
